Claim Rejections - 35 USC § 101

1 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

2. Claims 3-60 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Referring to claims 3-60, these claims are rejected because they are performing a method via an equations which is a mathematical algorithm which falls under the category of a judicial exception. The mathematical algorithm in each of the claims 3-60 manipulates a mathematical equations having no physical transformation nor do the mathematical equations define a tangible concrete which results in a practical application; consequently, these claims are unpatentable.

Response to Amendment

3. Applicant's arguments filed 4/7/06 have been fully considered but they are not persuasive.

The examiner respectively disagrees with the applicant argument that adding the limitation "wherein a loop-free route for transmitting the data through the network is determined" makes the claims statutory subject matter. The new limitation does not define a physical transformation with concrete tangible result; therefore, these claims still constitute non-statutory subject matter.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after

Art Unit: 2616

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
